ASHWIN KUMAR HM

AI TECHNICAL PROGRAM MANAGER | GENAI, CLOUD & ENTERPRISE DELIVERY

Bengaluru, India | hmashwinkumar@gmail.com | linkedin.com/in/hmashwinkumar|9986214021

EXECUTIVE PROFILE

Technical program and delivery leader with **20+ years** of experience spanning software engineering, enterprise platforms, cloud adoption, production operations and stakeholder leadership, with recent hands-on focus on **Generative AI**, **LLM-enabled solutions**, AI workflow design and enterprise AI adoption. Combines **PMP/Agile program leadership** with technical fluency in **Python, SQL, .NET, REST APIs, AWS, GCP, Azure and IBM Cloud**. Experienced in translating business problems into AI-enabled solutions, governing cross-functional delivery, managing risk and releases, and communicating technical trade-offs to business and engineering stakeholders.

CORE EXPERTISE

AI / GenAI Program Delivery	LLM Integration & AI Workflows	Enterprise Software Delivery
Program Governance & RAID	Cloud & API Integrations	Agile / Scrum / SDLC
Stakeholder & Client Leadership	Release / Production Readiness	AI Evaluation & Responsible Use

Career Note: *Several engagements from 2012 onward were client-specific consulting/contract assignments; tenure reflected the duration of the underlying client engagement.*

PROFESSIONAL EXPERIENCE

Consultant (Account Manager) | Canarys Automation Ltd **Mar 2024 – Dec 2025**

Contractual engagement | Major account: Gallagher | Bengaluru

- Led account and technology delivery for Gallagher, coordinating a **25-member L1/L2/L3 support organization**, client stakeholders, resources, escalations and delivery commitments.
- Implemented an **Azure OpenAI**-enabled automation for post-claim Impact Creation reporting, using LLM-generated narratives to reduce manual effort and improve reporting consistency.

Director of Technology | Exela Technologies **Nov 2021 – Feb 2023**

Full-time employment | Major account: Anthem Inc. (Elevance Health)

- Managed technology roadmaps, governance and transformation initiatives, aligning delivery priorities, risks and execution with organizational goals.
- Drove operational excellence through process improvement, resource optimization, performance oversight and cross-functional stakeholder management.

Consultant | Enerzinx, LLC **Sep 2019 – Oct 2021**

Contractual engagement | Bengaluru

- Led digital transformation initiatives including development and launch of the corporate website and improvements to the organization's digital presence.
- Introduced **Agile** delivery practices for engineering and technical support and strengthened execution governance.
- Built delivery/process automation using **Python**, **REST APIs**, Jira, Confluence Cloud and Service Desk.

Project Manager – Citrix | TEKsystems **May 2017 – Dec 2018**

Contractual engagement | Client: Citrix Inc. | Bengaluru

- **Citrix Support Portal** Managed cross-functional teams across India and the US supporting the Citrix Support Portal and its **24x7 production operations**.
- Led Agile ceremonies, roadmap/schedule management, release coordination, production readiness and stakeholder communication.
- Worked across Java, AEM, Salesforce, MySQL and cloud environments; supported initiatives including a **machine-learning recommendation capability**, chatbot, GDPR and A/B testing.

Technical Project Manager – Dell | Collabera **Aug 2015 – May 2017**

Contractual engagement | Client: Dell Inc. | Bengaluru

- Served as a central delivery lead within Dell's **Order Management Program**, coordinating production releases, dependencies and **40+ complex changes** across globally distributed teams.
- Led **production change** planning, release-date and downtime coordination, release communications, and execution of infrastructure/application decommissioning.
- Supported a financial application upgrade (GetPaid), including value analysis, vendor negotiation and execution planning; drove decommissioning of **40+ servers** and **10+ end-of-life applications**.

Principal Engineer – Citrix | TEKsystems **Jun 2012 – Jul 2015**

Contractual engagement | Client: Citrix Inc. | Bengaluru

- Managed technical, operational and marketing initiatives within the **Citrix Ready Technical Marketing Program**, combining program leadership with hands-on understanding of cloud APIs, .NET, Java and enterprise platforms.

- Revitalized the Citrix Ready Virtual Lab on **IBM Cloud / SoftLayer** and drove process improvements that materially reduced cloud cost.
- Led the Citrix Ready Marketplace initiative, secured more than **$1M** in steering-committee funding, coordinated third-party development and delivered within the committed timeline.
- Supported Citrix's adoption of **AWS**, helping map infrastructure, platform and scalability considerations during cloud transition.

Project Manager | Perceptron Software Labs Pvt Ltd **May 2009 – May 2012**

Full-time employment | Bengaluru & Porvorim - Goa

- Planned, estimated, executed, tracked and closed **fixed-price** software projects using **Waterfall** delivery.
- Delivered an in-house middleware solution using **C1G2 RFID**, **.NET** and **SQL** across iron-ore mining operations in Karnataka and Goa.
- Applied **Estimated Monetary Value** (**EMV**) techniques to project reserves for **fixed-price** engagements.

Senior Consultant / Project Lead | SGT India Pvt Ltd **Dec 2005 – Apr 2009**

Full-time employment | Major account: Lightridge Resources | Bengaluru

- Served as the primary client interface for Houston-based stakeholders, gathering requirements, coordinating development teams and supporting project decisions.
- Developed PE-Advisor, an Energy & Utility performance-management solution, and contributed hands-on programming in **C#**, **SQL** and **database administration**.
- Combined technical delivery, customer communication and escalation management to support project quality and business outcomes.

Assistant Manager – Operations & Maintenance | Reliance Energy Ltd **Sep 2002 – Jan 2005**

Full-time employment | Zuarinagar, Goa

- Managed operation and maintenance activities for an **80 MW power plant** covering gas turbine, HRSG and steam turbine systems.
- Supported uninterrupted power supply and handled regular and emergency plant trips to minimize downtime.
- Worked with GE Mark V turbine controls and Invensys Foxboro plant automation systems.

AI, TECHNOLOGY & DELIVERY TOOLKIT

AI / GenAI: **OpenAI / Azure OpenAI,** Python, .NET, SQL, Java, Flask, LangChain, FAISS, Azure OpenAI, SpeechRecognition, gTTS
Engineering / Data: **Python**, C#, .NET, Java, SQL, MySQL, **REST APIs**, Flask, LangChain, FAISS
Cloud / Delivery: **AWS, GCP, Azure, IBM Cloud / SoftLayer**, Jira, Confluence, Agile/Scrum, Waterfall, SDLC, RAID, release/change management

SELECTED INDEPENDENT AI / PRODUCT INITIATIVES

- **JalBodh** – AI-enabled water-governance and decision-support platform with multilingual English/Kannada/Hindi interaction, voice capability, structured-data intelligence, anomaly/trend analysis and deterministic LLM-assisted insights.
- **MeetMind** – GenAI meeting-intelligence platform that converts meeting transcripts into summaries, action items, decisions, follow-ups and reusable organizational knowledge.
- **Smart Status for Phone (CTUrC)** – Android-based prototype that automatically communicates user availability through context-aware responses to missed calls, preventing misunderstandings and communication gaps.

CERTIFICATIONS & PROFESSIONAL DEVELOPMENT
